AHTD Job No. CA0602 ConnectingArkansasProgram.com

hmm 2015 1/8/15

...that the city wouldn't allow any more clubs to operate that late.

The president of the Love Neighborhood Association wrote a letter to the city saying that more people at the club would raise more problems and that other 2 a.m. clubs on Asher Avenue would want to extend their hours if Club Trois gets the hours extension.

"Approval of this extension has trouble written all over it," President Rhonda Ross wrote.

The state no longer issues Class B permits that allow alcohol sales until 5 a.m., but permit-holders can transfer their licenses to other businesses.

In Club Trois' case, Johnson took over as manager of the Little Rock Association of the Deaf's license.

Ward 1 City Director Erma Hendrix, who is black, said late-night clubs set up only in "the black community" and contribute to crime.

that an applicant decides where to locate a business, not the city.

There was objection in 2011 when the deaf association tried to lease its 5 a.m. permit to Juanita's Cafe and Bar in the River Market District. After objections from the mayor, Police Department, library system and others, the Alcoholic Beverage Control Board refused to allow the lease.

Despite Moore's interrup-

Cazort said that because of his tour of the clubs he could testify that they are not only in communities predominantly populated by black people.

Mayor Mark Stodola said allowing Club Trois to extend its hours is "an issue of fundamental fairness." Fortson agreed, saying the board shouldn't discriminate and, "If we approved one to start with, we have to approve the others."

OPEN HOUSE NOTICE OF PUBLIC MEETING

January 6, 2015

Representative Camille Bennett
Arkansas House of Representatives, District 14
P.O. Box 414
Lonoke, AR 72086

SUBJECT: Notice of Public Meeting in North Little Rock
AHTD Job No. CA0602
I-530-Hwy. 67 (Widening & Reconst.) (I-30 & I-40)
Interstate 30 Planning and Environmental Linkages Study
Pulaski County

Representative Bennett:

The Arkansas State Highway and Transportation Department will hold a public meeting in North Little Rock to discuss and present transportation solutions for the Interstate 30 Planning and Environmental Linkages (PEL) study. The study area includes I-30 in Little Rock and North Little Rock from I-40 to I-530, including the Arkansas River Bridge, as well as I-40 from JFK Boulevard to Highway 67.

This meeting will present information on the evaluation and screening of the Preliminary Alternatives (that were presented at the public meeting on November 6, 2014) to a set of Reasonable Alternatives, which will be carried forward to the next level of analysis. The meeting will be held on Thursday, January 29 from 4 p.m. – 7 p.m. at the Friendly Chapel Church of the Nazarene (Gym), 116 South Pine, North Little Rock.

This "open house" meeting is for the public to view maps and exhibits, ask questions, and provide input on the study. You are invited and encouraged to attend this meeting and offer your views concerning the project. Any publicity you might give this meeting is appreciated.

If you have any questions, please contact Ms. Keli Wyle, P.E., at (501) 569-2247, Keli.Wylie@ahtd.ar.gov or Mr. Earl Mott, P.E., Garver at (501) 537-3258, wemott@garverusa.com.

Sincerely,

A handwritten signature in black ink that reads 'Scott E. Bennett'.

January 6, 2015

Representative Julie Mayberry
Arkansas House of Representatives, District 27
3022 East Woodson Lateral Road
Hensley, AR 72065

SUBJECT: Notice of Public Meeting in North Little Rock
AHTD Job No. CA0602
I-530-Hwy. 67 (Widening & Reconst.) (I-30 & I-40)
Interstate 30 Planning and Environmental Linkages Study
Pulaski County

Representative Mayberry:

The Arkansas State Highway and Transportation Department will hold a public meeting in North Little Rock to discuss and present transportation solutions for the Interstate 30 Planning and Environmental Linkages (PEL) study. The study area includes I-30 in Little Rock and North Little Rock from I-40 to I-530, including the Arkansas River Bridge, as well as I-40 from JFK Boulevard to Highway 67.

This meeting will present information on the evaluation and screening of the Preliminary Alternatives (that were presented at the public meeting on November 6, 2014) to a set of Reasonable Alternatives, which will be carried forward to the next level of analysis. The meeting will be held on Thursday, January 29 from 4 p.m. – 7 p.m. at the Friendly Chapel Church of the Nazarene (Gym), 116 South Pine, North Little Rock.

This "open house" meeting is for the public to view maps and exhibits, ask questions, and provide input on the study. You are invited and encouraged to attend this meeting and offer your views concerning the project. Any publicity you might give this meeting is appreciated.

If you have any questions, please contact Ms. Keli Wyle, P.E., at (501) 569-2247, Keli.Wylie@ahtd.ar.gov or Mr. Earl Mott, P.E., Garver at (501) 537-3258, wemott@garverusa.com.

AHTD Job No. CA0602
I-530-Hwy. 67 (Widening & Reconst.) (I-30 & I-40)
Interstate 30 Planning and Environmental Linkages Study
Pulaski County

Mr. Tolefree:

The Arkansas State Highway and Transportation Department will hold a public meeting in North Little Rock to discuss and present transportation solutions for the Interstate 30 Planning and Environmental Linkages (PEL) study. The study area includes I-30 in Little Rock and North Little Rock from I-40 to I-530, including the Arkansas River Bridge, as well as I-40 from JFK Boulevard to Highway 67.

This meeting will present information on the evaluation and screening of the Preliminary Alternatives (that were presented at the public meeting on November 6, 2014) to a set of Reasonable Alternatives, which will be carried forward to the next level of analysis. The meeting will be held on Thursday, January 29 from 4 p.m. – 7 p.m. at the Friendly Chapel Church of the Nazarene (Gym), 116 South Pine, North Little Rock.

This "open house" meeting is for the public to view maps and exhibits, ask questions, and provide input on the study. You are invited and encouraged to attend this meeting and offer your views concerning the project. Any publicity you might give this meeting is appreciated.

I-530-Hwy. 67 (Widening & Reconst.) (I-30 & I-40)
Interstate 30 Planning and Environmental Linkages Study
Pulaski County

Board of Directors Wright:

The Arkansas State Highway and Transportation Department will hold a public meeting in North Little Rock to discuss and present transportation solutions for the Interstate 30 Planning and Environmental Linkages (PEL) study. The study area includes I-30 in Little Rock and North Little Rock from I-40 to I-530, including the Arkansas River Bridge, as well as I-40 from JFK Boulevard to Highway 67.

This meeting will present information on the evaluation and screening of the Preliminary Alternatives (that were presented at the public meeting on November 6, 2014) to a set of Reasonable Alternatives, which will be carried forward to the next level of analysis. The meeting will be held on Thursday, January 29 from 4 p.m. – 7 p.m. at the Friendly Chapel Church of the Nazarene (Gym), 116 South Pine, North Little Rock.

This "open house" meeting is for the public to view maps and exhibits, ask questions, and provide input on the study. You are invited and encouraged to attend this meeting and offer your views concerning the project. Any publicity you might give this meeting is appreciated.

Interstate 30 Planning and Environmental Linkages Study
Pulaski County

Mr. Rhoads:

The Arkansas State Highway and Transportation Department will hold a public meeting in North Little Rock to discuss and present transportation solutions for the Interstate 30 Planning and Environmental Linkages (PEL) study. The study area includes I-30 in Little Rock and North Little Rock from I-40 to I-530, including the Arkansas River Bridge, as well as I-40 from JFK Boulevard to Highway 67.

This meeting will present information on the evaluation and screening of the Preliminary Alternatives (that were presented at the public meeting on November 6, 2014) to a set of Reasonable Alternatives, which will be carried forward to the next level of analysis. The meeting will be held on Thursday, January 29 from 4 p.m. – 7 p.m. at the Friendly Chapel Church of the Nazarene (Gym), 116 South Pine, North Little Rock.

This "open house" meeting is for the public to view maps and exhibits, ask questions, and provide input on the study. You are invited and encouraged to attend this meeting and offer your views concerning the project. Any publicity you might give this meeting is appreciated.

Interstate 30 Planning and Environmental Linkages Study
Pulaski County

Mr. Hartwick:

The Arkansas State Highway and Transportation Department will hold a public meeting in North Little Rock to discuss and present transportation solutions for the Interstate 30 Planning and Environmental Linkages (PEL) study. The study area includes I-30 in Little Rock and North Little Rock from I-40 to I-530, including the Arkansas River Bridge, as well as I-40 from JFK Boulevard to Highway 67.

This meeting will present information on the evaluation and screening of the Preliminary Alternatives (that were presented at the public meeting on November 6, 2014) to a set of Reasonable Alternatives, which will be carried forward to the next level of analysis. The meeting will be held on Thursday, January 29 from 4 p.m. – 7 p.m. at the Friendly Chapel Church of the Nazarene (Gym), 116 South Pine, North Little Rock.

This "open house" meeting is for the public to view maps and exhibits, ask questions, and provide input on the study. You are invited and encouraged to attend this meeting and offer your views concerning the project. Any publicity you might give this meeting is appreciated.

AHTD Job No. CA0602
I-530-Hwy.67 (Widening & Reconst.) (I-30 & I-40)
I-30 Planning and Environmental Linkages Study
Pulaski County

Greetings:

The Arkansas State Highway and Transportation Department will hold a public meeting in North Little Rock to discuss and present transportation solutions for the Interstate 30 Planning and Environmental Linkages (PEL) study. The study area includes I-30 in Little Rock and North Little Rock from I-40 to I-530, including the Arkansas River Bridge, as well as I-40 from JFK Boulevard to Highway 67.

This meeting will present information on the evaluation and screening of the Preliminary Alternatives (that were presented at the public meeting on November 6, 2014) to a set of Reasonable Alternatives, which will be carried forward to the next level of analysis. The meeting will be held on Thursday, January 29 from 4 p.m. – 7 p.m. at the Friendly Chapel Church of the Nazarene (Gym), 116 South Pine, North Little Rock.

This "open house" meeting is for the public to view maps and exhibits, ask questions, and provide input on the study. This information may be of interest to the members of your congregation, especially those whom may be affected by this project, and your announcement will increase interest in highway development in general. Thank you for your consideration. If you have any questions, please contact info@ConnectingArkansasProgram.com or call 501-255-1519.

Sincerely,

A handwritten signature in black ink that reads 'Scott E. Bennett'.

AHTD Job No. CA0602
I-530-Hwy.67 (Widening & Reconst.) (I-30 & I-40)
I-30 Planning and Environmental Linkages Study
Pulaski County

Greetings:

The Arkansas State Highway and Transportation Department will hold a public meeting in North Little Rock to discuss and present transportation solutions for the Interstate 30 Planning and Environmental Linkages (PEL) study. The study area includes I-30 in Little Rock and North Little Rock from I-40 to I-530, including the Arkansas River Bridge, as well as I-40 from JFK Boulevard to Highway 67.

This meeting will present information on the evaluation and screening of the Preliminary Alternatives (that were presented at the public meeting on November 6, 2014) to a set of Reasonable Alternatives, which will be carried forward to the next level of analysis. The meeting will be held on Thursday, January 29 from 4 p.m. – 7 p.m. at the Friendly Chapel Church of the Nazarene (Gym), 116 South Pine, North Little Rock.

This "open house" meeting is for the public to view maps and exhibits, ask questions, and provide input on the study. This information may be of interest to the members of your congregation, especially those whom may be affected by this project, and your announcement will increase interest in highway development in general. Thank you for your consideration. If you have any questions, please contact info@ConnectingArkansasProgram.com or call 501-255-1519.

Pulaski County

Greetings:

The Arkansas State Highway and Transportation Department will hold a public meeting in North Little Rock to discuss and present transportation solutions for the Interstate 30 Planning and Environmental Linkages (PEL) study. The study area includes I-30 in Little Rock and North Little Rock from I-40 to I-530, including the Arkansas River Bridge, as well as I-40 from JFK Boulevard to Highway 67.

This meeting will present information on the evaluation and screening of the Preliminary Alternatives (that were presented at the public meeting on November 6, 2014) to a set of Reasonable Alternatives, which will be carried forward to the next level of analysis. The meeting will be held on Thursday, January 29 from 4 p.m. – 7 p.m. at the Friendly Chapel Church of the Nazarene (Gym), 116 South Pine, North Little Rock.

This "open house" meeting is for the public to view maps and exhibits, ask questions, and provide input on the study. This information may be of interest to the members of your congregation, especially those whom may be affected by this project, and your announcement will increase interest in highway development in general. Thank you for your consideration. If you have any questions, please contact info@ConnectingArkansasProgram.com or call 501-255-1519.

Sincerely,

A handwritten signature in black ink that reads 'Scott E. Bennett'.

AHTD Job No. CA0602
I-530-Hwy.67 (Widening & Reconst.) (I-30 & I-40)
I-30 Planning and Environmental Linkages Study
Pulaski County

Greetings:

The Arkansas State Highway and Transportation Department will hold a public meeting in North Little Rock to discuss and present transportation solutions for the Interstate 30 Planning and Environmental Linkages (PEL) study. The study area includes I-30 in Little Rock and North Little Rock from I-40 to I-530, including the Arkansas River Bridge, as well as I-40 from JFK Boulevard to Highway 67.

This meeting will present information on the evaluation and screening of the Preliminary Alternatives (that were presented at the public meeting on November 6, 2014) to a set of Reasonable Alternatives, which will be carried forward to the next level of analysis. The meeting will be held on Thursday, January 29 from 4 p.m. – 7 p.m. at the Friendly Chapel Church of the Nazarene (Gym), 116 South Pine, North Little Rock.

This "open house" meeting is for the public to view maps and exhibits, ask questions, and provide input on the study. This information may be of interest to the members of your congregation, especially those whom may be affected by this project, and your announcement will increase interest in highway development in general. Thank you for your consideration. If you have any questions, please contact info@ConnectingArkansasProgram.com or call 501-255-1519.

Sincerely,

AHTD TO HOLD PUBLIC INVOLVEMENT MEETING IN NORTH LITTLE ROCK

LITTLE ROCK (1-23) – The Arkansas State Highway and Transportation Department (AHTD) will hold a public involvement meeting in North Little Rock to present and discuss transportation solutions for the Interstate 30 Planning and Environmental Linkages Study. The study will identify and document the transportation needs and potential improvements for the study area, which includes I-30 from I-40 to I-530, including the Arkansas River Bridge, as well as I-40 from JFK Boulevard to Highway 67. This project is part of the department's [Connecting Arkansas Program](#).

This meeting will present information on the evaluation and screening of the Preliminary Alternatives (that were presented at the public meeting on Nov. 6, 2014) to a set of Reasonable Alternatives, which will be carried forward to the next level of analysis. The meeting will be held **Thursday, January 29th**, from 4:00 p.m. to 7:00 p.m., at Friendly Chapel Church of the Nazarene (Gym), 116 South Pine in North Little Rock.

The meeting will be held in an open house format, and the public is invited to visit anytime during the scheduled hours to view displays, ask questions, and provide input on the study. For more information, contact the Arkansas State Highway and Transportation Department's Connecting Arkansas Program Manager at 501-255-1519 or info@ConnectingArkansasProgram.com.

Re: AHTD Job No. CA602

Dear. Mr. Wilson,

Your assistance is requested in publicizing a Public Involvement Meeting that will be held in North Little Rock, Arkansas to discuss the I-30 Planning and Environmental Linkage Study. In compliance with Title VI regulations, it is important that we reach as many minority listeners as possible. We have identified Heartbeat 106.7 FM as the station capable of addressing our announcement needs.

Enclosed please find a paid service announcement with general information about the scheduled Public Involvement Meeting that will be held on Thursday, January 29, 2015 from 4:00 p.m. to 7:00 p.m. We request that three 30-second PSAs run Monday, January 19 thru Thursday, January 29, 2015. In addition to the paid spots, we are also requesting the bonus spots at no additional cost as per the contract.

Send invoice for payment to:

Arkansas State Highway and Transportation Department
Attn: Environmental Division / Yulissa Mendoza
PO# 17-127
P.O. Box 2261
Little Rock, AR 72203
Phone: 501-569-2281
Fax: 501-569-2089

Sincerely,

Ruby Jordan-Johnson
Section Head-Public Involvement
Environmental Division

AVISO DE REUNION PÚBLICA

(30 segundos)

El Departamento de Carreteras y Transporte del Estado de Arkansas (AHTD, por sus siglas en inglés) realizara una reunión de Participación Pública en North Little Rock, Arkansas para discutir y presentar soluciones de transporte para el Estudio de Planeación y Vínculos Ambientales (PEL, por sus siglas en inglés) de la autopista I-30 y el Puente del Rio Arkansas.

La reunión se llevará a cabo el Jueves, 29 de Enero del 2015 de 4 p.m. a 7 p.m. en el Gimnasio de la Capilla Amistosa de la Iglesia del Nazareno, 116 South Pine en North Little Rock.

La reunión pública se llevará a cabo en un formato informal y abierto. No habrá presentación formal. Se invita al público a visitar en cualquier momento durante las horas programadas para ver exposiciones, hacer preguntas, y proporcionar comentarios.

Este ha sido un mensaje de La Pantera 1440 AM y El Ministerio de Carreteras y Transporte del Estado de Arkansas.

AHTD to Hold Public Involvement Meeting in North Little Rock

Information Release
Arkansas State Highway and Transportation Department
NR 15-018
January 29, 2015

LITTLE ROCK (1-23) – The Arkansas State Highway and Transportation Department (AHTD) will hold a public involvement meeting in North Little Rock to present and discuss transportation solutions for the Interstate 30 Planning and Environmental Linkages Study. The study will identify and document the transportation needs and potential improvements for the study area, which includes I-30 from I-40 to I-530, including the Arkansas River Bridge, as well as I-40 from JFK Boulevard to Highway 67. This project is part of the department's Connecting Arkansas Program.

This meeting will present information on the evaluation and screening of the Preliminary Alternatives (that were presented at the public meeting on Nov. 6, 2014) to a set of Reasonable Alternatives, which will be carried forward to the next level of analysis. The meeting will be held **Thursday, January 29th, from 4:00 p.m. to 7:00 p.m.**, at Friendly Chapel Church of the Nazarene (Gym), 116 South Pine in North Little Rock.

The meeting will be held in an open house format, and the public is invited to visit anytime during the scheduled hours to view displays, ask questions, and provide input on the study. For more information, contact the Arkansas State Highway and Transportation Department's Connecting Arkansas Program Manager at 501-255-1519 or info@ConnectingArkansasProgram.com

NOTICE OF NONDISCRIMINATION: The Arkansas State Highway and Transportation Department (AHTD) complies with all civil rights provisions of federal statutes and related authorities that prohibit discrimination in programs and activities receiving federal financial assistance. Therefore, the Department does not discriminate on the basis of race, sex, color, age, national origin, religion or disability, in the admission, access to and treatment in the Department's programs and activities, as well as the Department's hiring or employment practices. Complaints of alleged discrimination and inquiries regarding the Department's nondiscrimination policies may be directed to Joanna P. McFadden Section Head- EEO/DBE (ADA/504/Title VI Coordinator), P. O. Box 2261, Little Rock, AR 72203, (501) 589-2298, (Voice/TTY 711), or the following email address: Joanna.McFadden@arkansashighways.com.

There will be a public meeting tonight for the I-30 Corridor Planning and Environmental Linkages Study. We hope you can make it!

Thursday, January 29, 2015

4:00 – 7:00 p.m.

Friendly Chapel Church of the Nazarene (Gym)

116 South Pine, North Little Rock, Arkansas

OPEN HOUSE PUBLIC MEETING NOTICE

WHAT: Public Involvement Meeting to discuss and present transportation solutions for the I-30 Planning and Environmental Linkages Study. The study area includes I-30 in Little Rock and North Little Rock from I-40 to I-530, including the Arkansas River Bridge, as well as I-40 from JFK Blvd. to Hwy. 67.

WHEN: Thursday, January 29, 2015
4:00 p.m. to 7:00 p.m.

WHERE: Friendly Chapel Church of the Nazarene (Gym)
116 South Pine
North Little Rock, AR

The Arkansas State Highway and Transportation Department (AHTD) will conduct a public involvement meeting to discuss and present transportation solutions for the Interstate 30 Planning and Environmental Linkages (PEL) Study. This meeting will present information on the evaluation and screening of the Preliminary Alternatives (that were presented at the public meeting on November 6, 2014) to a set of Reasonable Alternatives, which will be carried forward to the next level of analysis. This will be an "open house" meeting with no formal presentations. The public is invited to visit any time during the scheduled hours to view maps and exhibits, ask questions, and provide input on the study.

Anyone needing project information or special accommodations under the Americans with Disabilities Act (ADA) is encouraged to write to the Connecting Arkansas Program Manager, 4701 Northshore Drive, North Little Rock, AR 72118, call (501) 255-1539, fax (501) 372-8042 or email Info@ConnectingArkansasProgram.com. Hearing or speech impaired, please contact the Arkansas Relay System at (Voice/TTY 711). Requests should be made at least five days prior to the public meeting.

NOTICE OF NONDISCRIMINATION: The Arkansas State Highway and Transportation Department (AHTD) complies with all civil rights provisions of federal statutes and related authorities that prohibit discrimination in programs and activities receiving federal financial assistance. Therefore, the Department does not discriminate on the basis of race, sex, color, age, national origin, religion or disability, in the admission, access to and treatment in the Department's programs and activities, as well as the Department's hiring or employment practices. Complaints of alleged discrimination and inquiries regarding the Department's nondiscrimination policies may be directed to Joanna P. McFadden Section Head - EEO/DDE (ADA/504 Title VI Coordinator), P.O. Box 2280, Little Rock, AR 72203, (501) 549-2298, (Voice/TTY 711), or the following email address: Joanna.McFadden@arkansasdot.com.

This notice is available from the ADA/504 Title VI Coordinator in large print, on audiotape and in Braille.

Interstate 30 Planning & Environmental Linkages Study

I-530 - Highway 67

Public Meeting #3

Thursday, Jan. 29, 2015, 4 p.m. - 7 p.m.

Friendly Chapel Church of the Nazarene (Gym)

116 South Pine Street, North Little Rock, AR

Welcome!

- Sign In
- Review handouts
- Visit each station
- Ask questions
- Provide comments

Written comments must be postmarked by Friday, Feb. 13, 2015.

Mail: Connecting Arkansas Program
RE: I-30 PEL Study
4701 Northshore Drive
North Little Rock, AR 72118

Email: info@connectingarkansasprogram.com

Thank you for attending today's public meeting.
The Arkansas State Highway and Transportation Department (AHTD) welcomes you.

Today's public meeting is about the I-30 Planning and Environmental Linkages (PEL) Study.

The purpose of the study is to identify transportation needs and potential improvements for the study area.

The purpose of the meeting is to provide an opportunity for you to gather information and provide comments on the study, including but not limited to:

- Level 2 Screening
- Reasonable Alternatives
(Scenarios for Further Evaluation)

No formal presentation will be given.

Station 1 - Sign-in Table

Station 2 - Study Area, Constraints Maps,
and Timeline

Station 3 - Level 1 Screening

Station 4 - Level 2 Screening

Station 5 - Reasonable Alternatives and
Typical Sections

Station 6 - I-30 PEL Documents

Station 7 - Comments and How to Get Involved

All of the materials presented tonight will be available for review at www.connectingarkansasprogram.com.

STUDY GOALS

Improve opportunity for east-west connectivity	Enhance mobility
Improve local vehicle access to downtown Little Rock and North Little Rock	Connect bicycle/pedestrian friendly facilities
Accommodate existing transit and future transit	Minimize roadway disruptions during construction
Minimize river navigation disruptions during/after construction	Follow through on commitment to voters to improve I-30 as part of the Connecting Arkansas Program
Optimize opportunities for economic development	Avoid and/or minimize impacts to the human and natural environment, including historic and archaeological resources
Sustain public and agency input and support for the I-30 corridor improvements	Improve system reliability
Maximize I-30 cost efficiency	Improve safety

Study Goals listed in no particular order. Study Goals developed in coordination with Project Partners (Cities of Little Rock and North Little Rock, Pulaski County, and Metroplan), the Technical Work Group, and the public.

FACT SHEET

CA0602

Interstate 530 - Highway 67

What is the Interstate 30 Planning and Environmental Linkages Study?

The Arkansas State Highway and Transportation Department (AHTD) is dedicated to working with our community to provide safe and reliable transportation solutions for Arkansas. As part of this mission, we are beginning the community discussion and visioning process for transportation improvements along I-30 in central Arkansas. The study area includes I-30 from I-40 in the north to I-530 in the south, including the Arkansas River Bridge, as well as I-40 from JFK Boulevard east to U.S. 67.

The Planning and Environmental Linkages (PEL) process will be followed for the I-30 study and will identify and document the transportation needs and potential improvements for the study area.

What is the PEL process?

The PEL process was established by the Federal Highway Administration (FHWA) to provide a more efficient process of evaluating a full range of transportation concepts and identifying the preferred improvements. This process allows early, planning-level decisions to be carried forward to accelerate future National Environmental Policy Act (NEPA) activities.

What are the benefits of the PEL process?

In addition to informing and expediting the NEPA process, the PEL process will provide an opportunity for early coordination with the public as well as local, state, and federal agencies in a transparent and collaborative environment. By working together, alternatives and avoidance measures can be developed at a local level.

How long will the PEL process take?

The I-30 PEL study began in April 2014 and is anticipated to conclude in the summer of 2015. A report will be prepared to document the PEL process and recommended solutions.

Why is the PEL process needed for the I-30 improvements?

A feasibility study prepared jointly by AHTD and Metroplan in 2003 identified the need for transportation improvements for crossings of the Arkansas River. Some of the challenges identified for I-30 include:

- Increasing traffic congestion and travel times
- Inadequate roadway capacity
- Roadway safety and operational concerns
- Structural and functional roadway and bridge deficiencies

The PEL study will recommend a proposed solution or series of solutions to these challenges, as well as potential funding options.

How can the public get involved?

We understand that any proposed solution to the region's transportation needs must address issues and concerns from many stakeholders. Our process includes continuous outreach to engage the community throughout the study. AHTD will host future public meetings at locations that will be convenient to attendees from the study area. The public meetings will be held to provide project information and gather input from all those interested in the I-30 PEL Study.

(501) 255-1519

or email at
Info@ConnectingArkansasProgram.com

Combined, the CAP's 35 projects stretch 180 miles, which is longer than the Buffalo National River.

With passage of Issue No. 1, the Arkansas state sales tax temporarily increases a half-cent, to 6.5 cents, for 10 years. The design and construction of highways and interstate widening projects will be funded with the estimated \$1.8 billion (comprised of cash and bond proceeds) anticipated to accrue from the tax support.

Issue Number 1 on the November 2012 ballot. That equals

597,215 YES VOTES

City and County TURNBACK REVENUE

The State of Arkansas began collecting the half-cent sales tax on July 1, 2013.

As revenue is collected, **70%** of the money will go toward improvements to the state highway system.

70%

30% of the money will be split between local governments:

15% for COUNTIES
15% for LOCAL COMMUNITIES

30%

Investing in
ARKANSAS

The number of times you can pave to the top of Pinnacle Mountain and back down when aligning the CAP projects end to end.

120
TIMES

Pinnacle Summit TRAIL
3/4 mile to the top

The 180 miles of highways included in the CAP program will support an estimated **40,000 jobs** over the next 10 years.

Connecting Arkansas

Arkansas embarks on its largest highway construction program

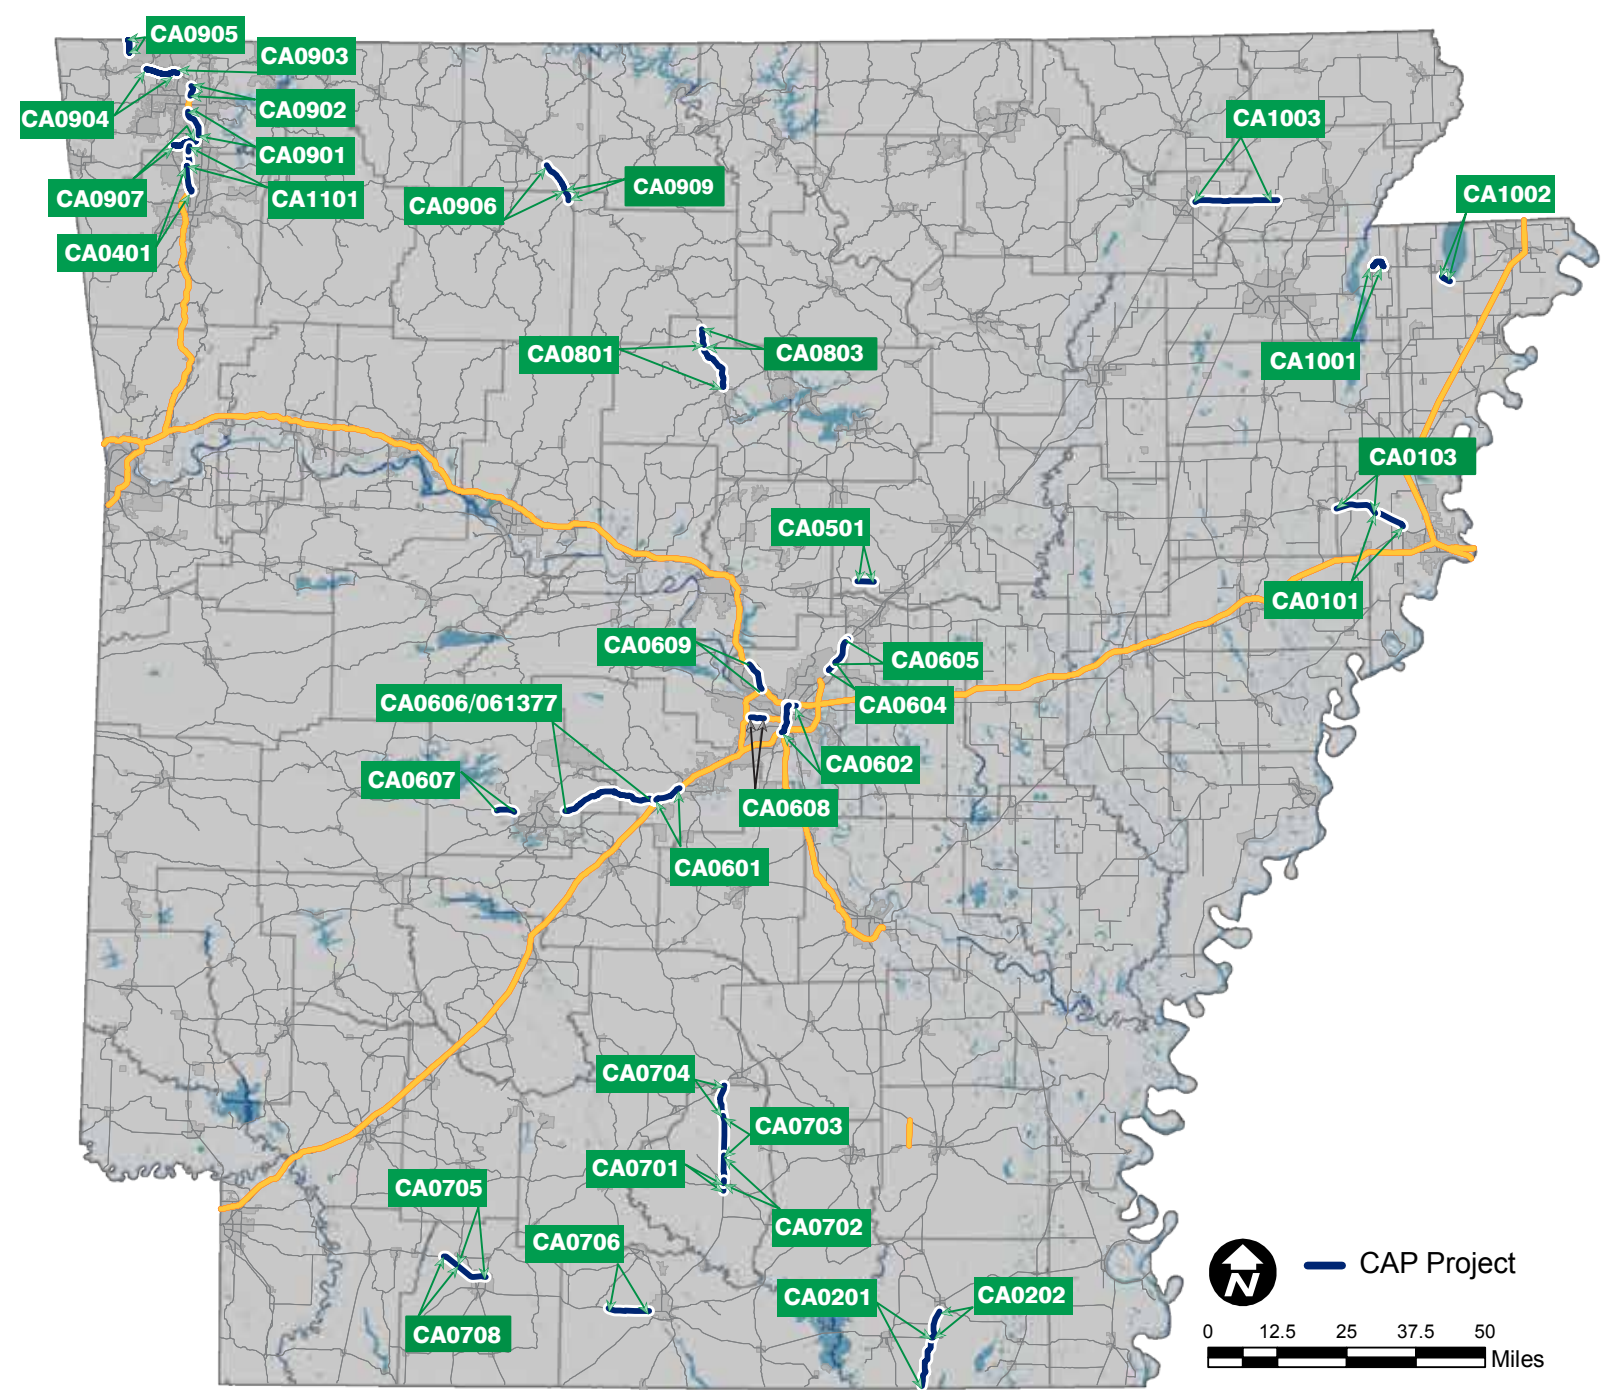

The Connecting Arkansas Program (CAP) is one of the largest highway construction programs ever undertaken by the Arkansas State Highway and Transportation Department (AHTD). Through a voter-approved constitutional amendment, the people of Arkansas passed a 10-year, half-cent sales tax to improve highway and infrastructure projects throughout the state. Thirty-five projects in 19 corridors will improve Arkansas' transportation system by widening selected two-lane roadways to four-lane highways and adding new lanes to identified interstate highways.

Program Benefits

- Improves transportation connections to all corners of Arkansas
- Increases capacity by widening highways to four lanes
- Improves traveler safety
- Eases congestion
- Supports job growth and improves Arkansas' economy
- Accelerates highway improvement projects

NOTICE OF NONDISCRIMINATION

The Arkansas State Highway and Transportation Department (Department) complies with all civil rights provisions of federal statutes and related authorities that prohibit discrimination in programs and activities receiving federal financial assistance. Therefore, the Department does not discriminate on the basis of race, sex, color, age, national origin, religion or disability, in the admission, access to and treatment in the Department's programs and activities, as well as the Department's hiring or employment practices. Complaints of alleged discrimination and inquiries regarding the Department's nondiscrimination policies may be directed to Joanna P. McFadden, Section Head - EEO/DBE (ADA/504/Title VI Coordinator), P.O. Box 2261, Little Rock, AR 72203, (501) 569-2298, (Voice/TTY 711), or the following email address:

Joanna.Mcfadden@arkansashighways.com

*This notice is available from the ADA/504/Title VI Coordinator in large print, on audiotape, and in Braille.

PEL STUDY TIMELINE

PURPOSE & NEED

Needs (Problems)	Purpose (Solutions)
Traffic Congestion	To improve mobility on I-30 and I-40 by providing comprehensive solutions that improve travel speed and travel time to downtown North Little Rock and Little Rock and accommodate the expected increase in traffic demand. I-30 provides essential access to other major statewide transportation corridors, serves local and regional travelers and connects residential, commercial and employment centers.
Roadway Safety	To improve travel safety within and across the I-30 corridor by eliminating and / or improving inadequate design features.
Structural and Functional Roadway Deficiencies	To improve I-30 roadway conditions and functional ratings.
Navigational Safety	To improve navigational safety on the Arkansas River Bridge by eliminating and / or improving inadequate design features.
Structural and Functional Bridge Deficiencies	To improve I-30 Arkansas River Bridge conditions and functional ratings.

Purpose & Need developed in coordination with Project Partners (Metroplan, Cities of Little Rock and North Little Rock, and Pulaski County), the Technical Work Group, and the public.

STUDY GOALS

Improve opportunity for east-west connectivity	Enhance mobility
Improve local vehicle access to downtown Little Rock and North Little Rock	Connect bicycle/pedestrian friendly facilities
Accommodate existing transit and future transit	Minimize roadway disruptions during construction
Minimize river navigation disruptions during/after construction	Follow through on commitment to voters to improve I-30 as part of the Connecting Arkansas Program
Optimize opportunities for economic development	Avoid and/or minimize impacts to the human and natural environment, including historic and archaeological resources
Sustain public and agency input and support for the I-30 corridor improvements	Improve system reliability
Maximize I-30 cost efficiency	Improve safety

Study Goals listed in no particular order. Study Goals developed in coordination with Project Partners (Cities of Little Rock and North Little Rock, Pulaski County, and Metroplan), the Technical Work Group, and the public.

UNIVERSE OF ALTERNATIVES

Highway Build

- Main Lane Widening
- Main Lane Pavement Rehabilitation
- Elevated Lanes
- Collector / Distributor (C/D) Roads
- Dedicated Truck Lanes/Ramps
- Auxiliary Lanes
- Frontage Road Improvements
- Intersection Improvements
- Interchange Improvements
- Ramp Consolidation / Elimination
- Roadway Shoulder Improvements
- Horizontal / Vertical Curve Improvements
- Bottleneck Removal
- Bypass Route

No Action

I-30 Bridge

- I-30 Arkansas River Bridge Rehabilitation
- I-30 Arkansas River Bridge Replacement
- I-30 Arkansas River Bridge Elevated Lanes

Other Modes

- Arterial Bus Transit
- I-30 Express Bus Transit
- Bus on Shoulder
- Bus Lanes
- Arterial Bus Rapid Transit
- Light Rail (Streetcar)
- Heavy Rail
- High Speed Rail
- Bicycle / Pedestrian
- Commuter Rail

Congestion Management

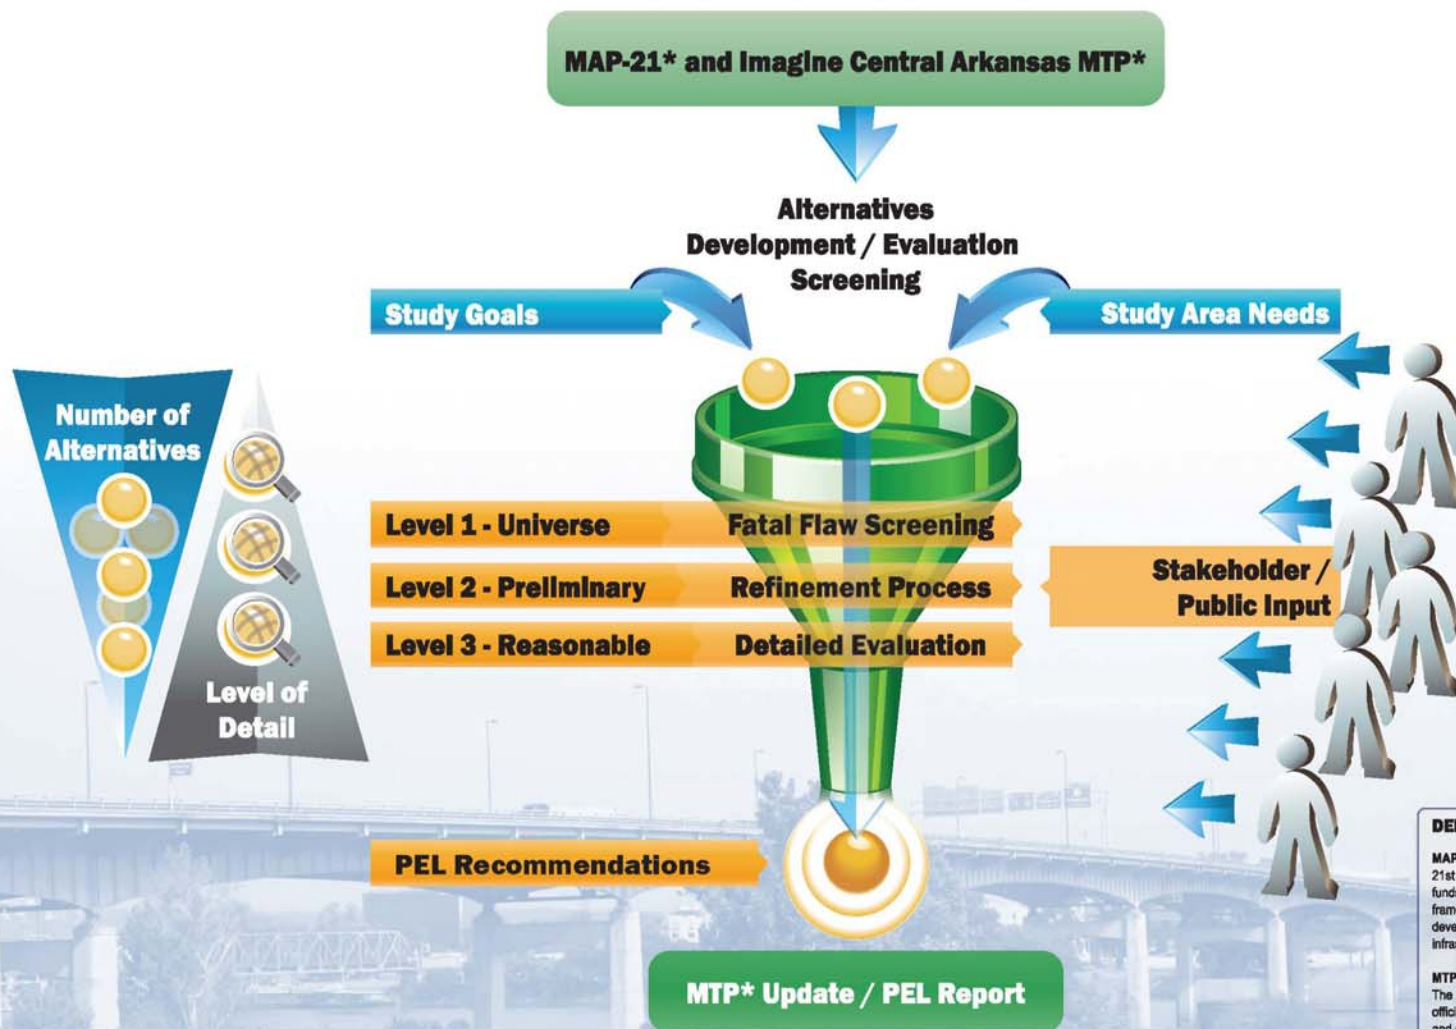

- Information Systems / Advanced Traveler Information
- High Occupancy Vehicle (HOV)
- Managed Lanes
- Reversible Lanes
- Ramp Metering
- Hard Shoulder Running
- Travel Demand Management
- Transportation System Management (TSM)
- Wayfinding / Signage
- Arterial Improvements
- Land Use Policy

Non-Recurring Congestion Management

- Crash Investigation Sites
- Roadside / Motorist Assist Enhancements
- Improvements to Detour Routes
- Variable Speed Limits (Speed Harmonization)
- Queue Warning

ALTERNATIVE SCREENING PROCESS

DEFINITIONS*

MAP-21 - Moving Ahead for Progress in the 21st Century Act authorizes FHWA to provide needed funds and transforms the policy and programmatic framework for investments to guide the growth and development of the country's vital transportation infrastructure.

MTP - Metropolitan Transportation Plan
The Metropolitan Transportation Plan (MTP) is the official intermodal transportation plan that is developed and adopted through the metropolitan transportation planning process for the metropolitan planning area.

Imagine Central Arkansas is the name used to identify the planning effort (MTP) by Metroplan, the metropolitan planning organization, to expand transportation choices in central Arkansas.

LEVEL 2 SCREENING METHODOLOGY

Level 2 Screening Process

- Qualitative screening (with some quantitative analysis) of the 38 Preliminary Alternatives (from Level 1) based on the study goals
- Two-step process that produced the Reasonable Alternatives to be tested in Level 3

LEVEL 2A SCREENING

- Test 38 Preliminary Alternatives against project goals and measures (qualitative)
- Group into 3 categories
 1. Primary
 2. Complementary
 3. Screened Out

LEVEL 2B SCREENING

- Group remaining Preliminary Alternatives as Basic Scenarios
- Test Basic Scenarios against project goals and measures (qualitative with some quantitative)
- Identify Reasonable Alternatives for further refinement and analysis in Level 3

LEVEL 2a SCREENING

38 Preliminary Alternatives

Screened Against Study Goals

38 evaluation measures in four groups:

- Mobility (14)
- Environmental (13)
- Safety (7)
- Cost (4)

Rated on how well each alternative was able to achieve study goals

Level 2 Qualitative Rating System

Rating	Meaning	Score
++	Substantial positive effects	2
+	Some positive effects	1
0	Neutral effects	0
-	Some negative effects	-1
--	Substantial negative effects	-2

Scores Tallied

Grouped into Categories

No
Action

PRIMARY ALTERNATIVES - have the potential to substantially address the study goals as stand-alone alternatives

Highway Build

- Main Lane Widening
- Collector/Distributor Roads
- Interchange Improvements

I-30 Bridge

- I-30 Arkansas River Bridge Replacement

COMPLEMENTARY ALTERNATIVES - address the study goals when combined with the Primary Alternatives

Highway Build

- Main Lane Pavement Rehabilitation
- Auxiliary Lanes
- Frontage Road Improvements
- Intersection Improvements
- Ramp Consolidation/Elimination
- Roadway Shoulder Improvements
- Horizontal/Vertical Curve Improvements
- Bottleneck Removal

Congestion Management

- Information Systems/Advanced Traveler Information
- Ramp Metering
- Travel Demand Management
- Transportation System Management
- Wayfinding/Signage
- Arterial Improvements

Non-Recurring Congestion Management

- Crash Investigation Sites
- Roadside/Motorist Assist Enhancements
- Improvements to Detour Routes
- Variable Speed Limits
- Queue Warning

Other Modes

- Arterial Bus Transit
- I-30 Express Bus Transit
- Bus on Shoulder

- Arterial Bus Lanes
- Arterial Bus Rapid Transit
- Bicycle/Pedestrian

ALTERNATIVES SCREENED OUT - did not adequately address the study goals

- Bypass Route
- I-30 Arkansas River Bridge Rehabilitation
- Commuter Rail
- Light Rail
- Managed Lanes
- Reversible Lanes
- Hard Shoulder Running
- Land Use Policy

LEVEL 2a SCREENING EXAMPLES

Measures Alternatives	Potential accident reductions	Transit ridership in the study area	Access to existing / potential business sites within the PEL study area	Total cost of ROW acquisition	Total Score (38 Measures)
	++	-	+	-	9
Bus on Shoulder	0	++	+	0	12

Color Codes for Measures

Measure
Mobility
Safety
Cost
Environmental

Level 2 Qualitative Rating System

Rating	Meaning	Score
++	Substantial positive effects	2
+	Some positive effects	1
0	Neutral effects	0
-	Some negative effects	-1
--	Substantial negative effects	-2

LEVEL 2a ALTERNATIVES SCREENED OUT

Highway Build

Bypass Route (-5)

- Introduces significant new environmental and community impacts (new corridor, new river crossing)
- Removes relatively small amount of traffic, approximately 3.5% traffic from I-30 corridor peak demand
- Cost with no identified funding source. The estimated cost for a Chester Street bridge is \$80-100 million, including expenses associated with right of way, roadway, intersections, and the bridge.

Other Modes

Commuter Rail (-3)

- Not in CATA short or long-term plan
- Removes small percentage of I-30 demand
- Lack of dedicated funding source

Light Rail (-4)

- Not in CATA short-term plan
- Removes a small percentage of I-30 demand. Metroplan projected the fixed guideway ridership to be 6,500 daily riders in 2040. The projected I-30 daily traffic forecast in 2040 is 165,000 vehicles.
- Lack of dedicated funding source

I-30 Bridge

I-30 Arkansas River Bridge Rehabilitation (-4)

- Little "rehab" left in rehabilitation
 - Piers and two main girder lines useable in rehabilitation, but piers need significant rehabilitation
 - All other elements must/should be replaced (approach spans and supports, roadway deck)
- Functional and structural deficiencies remain
 - Shoulder widths
 - Seismic resistance and fracture critical status
 - Reduced service life (< 75 years)
- Navigation impediments (piers) remain
 - Economic impact
 - Safety impact
- Agency concerns about navigation span/safety
 - U.S. Army Corps of Engineers
 - U.S. Coast Guard
 - Arkansas Waterways Commission

Congestion Management

Managed Lanes (-4)

- No regional system
- Additional weaving conflicts/traffic operations and safety
- Ongoing operational costs
- Potential Low Income issues (with tolling/pricing)

Reversible Lanes (-4)

- High initial costs
- Additional weaving conflicts/traffic operations and safety
- Ongoing operational costs

Hard Shoulder Running (-1)

- Safety issues
- Potential conflict with "Bus on Shoulder" operations

Land Use Policy (-4)

- No benefit to the corridor within the study period
- Did not address current mobility and safety needs as well as other alternatives

BASIC SCENARIOS RECOMMENDED FOR LEVEL 2b

Scenario 1

6
Lanes

No Additional Lanes (With Complementary Alternatives)
No Main Lane Widening

Scenario 2

8
Lanes

A Main Lane Widening (With Complementary Alternatives)
3 Main Lanes + 1 Main Lane Widening (each direction)

B Collector/Distributor (C/D) Roads (With Complementary Alternatives)
3 Main Lanes + 1 C/D Lane Widening (each direction)

Scenario 3

10
Lanes

A Main Lane Widening (With Complementary Alternatives)
3 Main Lanes + 2 Main Lane Widening (each direction)

B Collector/Distributor (C/D) Roads (With Complementary Alternatives)
3 Main Lanes + 2 C/D Lane Widening (each direction)

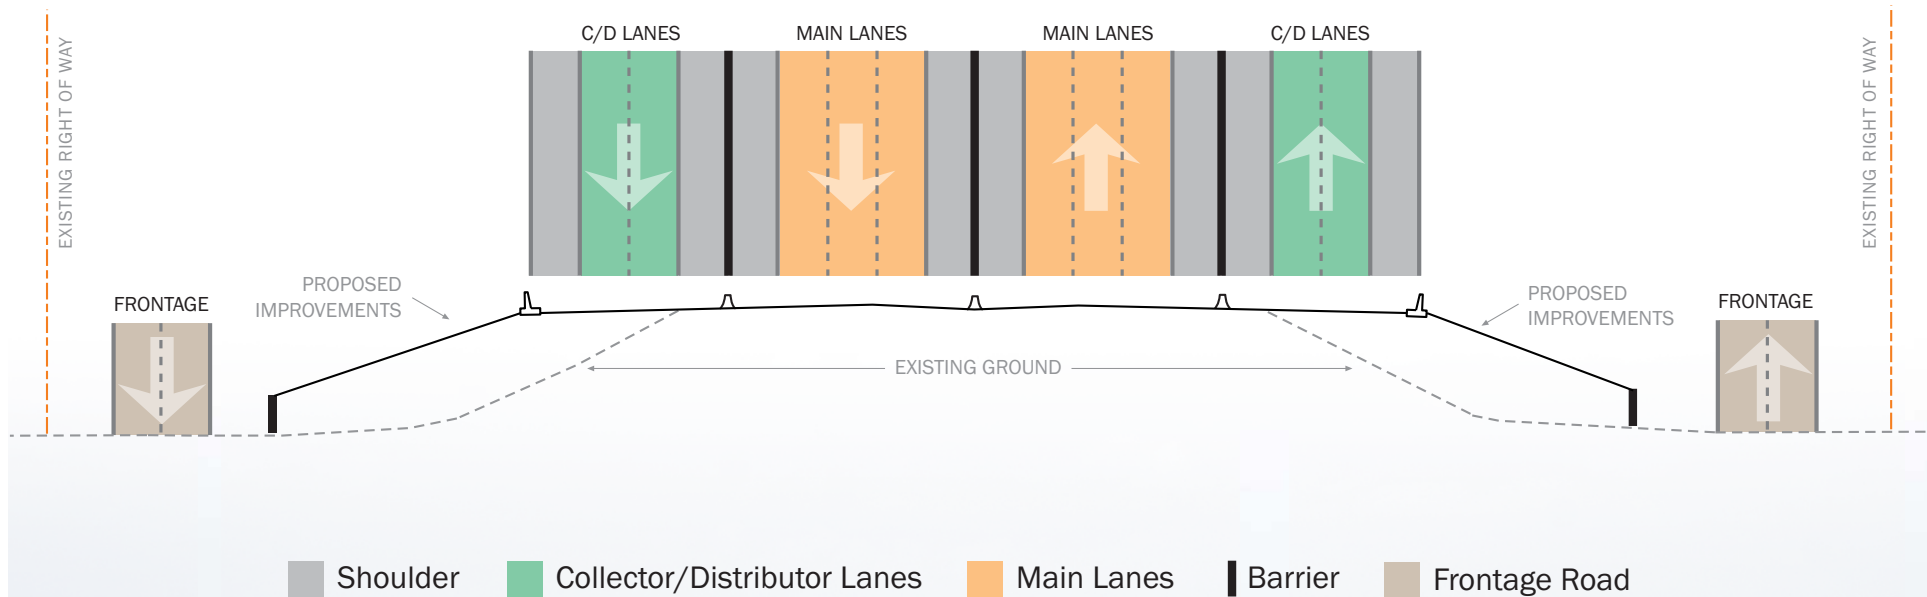

Scenario 4

12
Lanes

Main Lane Widening (With Complementary Alternatives)
3 Main Lanes + 3 Main Lane Widening (each direction)

All Complementary Alternatives were evaluated as a group within each scenario. For the Primary Alternatives, each scenario includes interchange improvements and I-30 Arkansas River Bridge Replacement; however Main Lane Widening and C/D Roads were evaluated as either/or scenarios for 8 and 10 lanes due to their substantial differences in ROW requirements and ability to affect mobility.

COLLECTOR/DISTRIBUTOR

What is a Collector/Distributor?

- C/D lanes are separated from main lanes by a barrier
- C/D lanes parallel and connect the main lanes of a highway with interchange ramps
- C/D lanes operate at lower speeds than main lane speeds and higher speeds than frontage road speeds

LEVEL 2b SCREENING

30 Reasonable Alternatives

Grouped Into Basic Scenarios with Complementary Alternatives

Scenario 1
6 LANES

No Main Lane Widening

Scenario 2
8 LANES

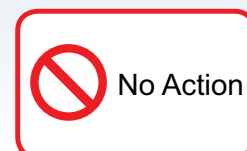

A Main Lane Widening **B** C/D Roads

Scenario 3
10 LANES

A Main Lane Widening **B** C/D Roads

Scenario 4
12 LANES

Main Lane Widening

Screened Against Study Goals

Rated on how well each scenario was able to achieve study goals

Level 2 Qualitative Rating System

Rating	Meaning	Score
++	Substantial positive effects	2
+	Some positive effects	1
0	Neutral effects	0
-	Some negative effects	-1
--	Substantial negative effects	-2

Scores Tallied

Averaged within each of four evaluation measure groups

- Mobility (25%)
- Environmental (25%)
- Safety (25%)
- Cost (25%)

Grouped into Categories

Positive Score

Scenario 2	8 Lanes	B Collector/Distributor (C/D) Roads 3 Main Lanes + 1 C/D Lane Widening (each direction)
Scenario 3	10 Lanes	A Main Lane Widening 3 Main Lanes + 2 Main Lane Widening (each direction) B Collector/Distributor (C/D) Roads 3 Main Lanes + 2 C/D Lane Widening (each direction)

Negative Score

No Action		
Scenario 1	6 Lanes	No Additional Lanes No Main Lane Widening
Scenario 2	8 Lanes	A Main Lane Widening 3 Main Lanes + 1 Main Lane Widening (each direction)
Scenario 4	12 Lanes	Main Lane Widening 3 Main Lanes + 3 Main Lane Widening (each direction)

LEVEL 2b SCREENING EXAMPLES

		6 Lane Scenario	8 Lane Scenario				10 Lane Scenario				12 Lane Scenario	
	No action	No main lane widening	3 main lanes + 1 main lane widening (each direction)		3 main lanes + 1 C/D lane widening (each direction)		3 main lanes + 2 main lane widening (each direction)		3 main lanes + 2 C/D lane widening (each direction)		3 main lanes + 3 main lane widening (each direction)	
			West	East	West	East	West	East			West	East
Emergency vehicle travel time	--	-	0	0	+	+	++	++	++	++	++	++
Transit ridership in the PEL study area	+	++	++	++	++	++	+	+	+	+	+	+

All Complementary Alternatives were evaluated as a group within each scenario. For the Primary Alternatives, each scenario includes interchange improvements and I-30 Arkansas River Bridge Replacement; however Main Lane Widening and C/D Roads were evaluated as either/or scenarios for 8 and 10 lanes due to their substantial differences in ROW requirements and ability to affect mobility.

Color Codes for Measures

Measure
Mobility
Safety
Cost
Environmental

Level 2 Qualitative Rating System

Rating	Meaning	Score
++	Substantial positive effects	2
+	Some positive effects	1
0	Neutral effects	0
-	Some negative effects	-1
--	Substantial negative effects	-2

LEVEL 2b SCENARIOS SCREENED OUT

Scenario 1

6
Lanes

No Additional Lanes (with Complementary Alternatives)

No Main Lane Widening

- Significant lack of mobility and safety improvements outweighed benefits of low cost and lower overall environmental impacts
- Overall negative score of **-25**

Scenario 2

8
Lanes

^A Main Lane Widening (with Complementary Alternatives)

3 Main Lanes + 1 Main Lane Widening (each direction)

- Modest positive mobility and safety improvements were outweighed by costs and environmental impacts
- Overall negative score of **-26**

Scenario 4

12
Lanes

Main Lane Widening (with Complementary Alternatives)

3 Main Lanes + 3 Main Lane Widening (each direction)

- Did not provide added performance for mobility or safety over 10-lane scenarios
- Had the second-widest overall footprint
- Negatives of environmental and costs outweighed mobility and safety benefits
- Overall negative score of **-67**

All Complementary Alternatives were evaluated as a group within each scenario. For the Primary Alternatives, each scenario includes interchange improvements and I-30 Arkansas River Bridge Replacement; however Main Lane Widening and C/D Roads were evaluated as either/or scenarios for 8 and 10 lanes due to their substantial differences in ROW requirements and ability to affect mobility.

SCENARIOS FOR FURTHER EVALUATION

No Action

PRIMARY ALTERNATIVES

Scenario 2

8
Lanes

B

Collector/Distributor (C/D) Roads (With Complementary Alternatives)

3 Main Lanes + 1 C/D Lane Widening (each direction)

Interchange Improvements

I-30 Arkansas River Bridge Replacement

Scenario 3

10
Lanes

A

Main Lane Widening (With Complementary Alternatives)

3 Main Lanes + 2 Main Lane Widening (each direction)

Interchange Improvements

I-30 Arkansas River Bridge Replacement

B

Collector/Distributor (C/D) Roads (With Complementary Alternatives)

3 Main Lanes + 2 C/D Lane Widening (each direction)

Interchange Improvements

I-30 Arkansas River Bridge Replacement

All Complementary Alternatives were evaluated as a group within each scenario. For the Primary Alternatives, each scenario includes interchange improvements and I-30 Arkansas River Bridge Replacement; however Main Lane Widening and C/D Roads were evaluated as either/or scenarios for 8 and 10 lanes due to their substantial differences in ROW requirements and ability to affect mobility.

Twitter: @AHTD

Attend the next public meeting: Spring 2015

Public Meeting #3 Photographs

Overview of the Public Meeting

Members of the I-30 PEL Study Team were available to greet public meeting participants as they entered the meeting. Attendees were provided informative handouts and seven distinct stations were set up to provide information on the PEL Study. Study Team staff were available at each station to answer questions. At the final station, meeting participants were invited to submit comments in the comment drop box. An audio recorder was also available for anyone wanting to make an oral statement. Meeting participants also learned the many ways in which they could make comments and obtain additional information

Study Area, Constraints Map and Timeline

Meeting participants were able to view the proposed I-30 PEL study area, review the environmental constraints (such as historic districts and structures, wetlands and parks) and review the PEL study timeline and where we are in that process. This station also presented the Purpose and Need of the project and the Study Goals

Level 1 Screening

Meeting participants were provided an overview of the Alternatives Screening Methodology, and then walked through the Level 1 screening process which evaluated and screened the Universe of Alternatives to a set of Preliminary Alternatives.

Level 2 Screening

Meeting participants were walked through the Level 2 screening process which evaluated and screened the Preliminary Alternatives to a set of Reasonable Alternatives to be carried forward to the Level 3 screening analysis.

Roll Plots and Typical Sections

This station allowed meeting participants to view the existing and proposed rights-of-way for the Reasonable Alternatives on aerial photograph. Typical Sections for each Reasonable Alternative were also presented. The three Reasonable Alternatives included an 8-lane C/D Scenario (3 Main Lanes + 1 C/D each direction); a 10-Lane Scenario (5 Main Lanes each direction); and a 10-Lane C/D Scenario (3 Main Lanes + 2 C/D Lanes each direction). Study Team members were available to answer questions. Meeting attendees were informed that Interchange and ramp locations will be determined during the Level 3 process.

Comments: The 67/6740 I-40 weave can be improved by
moving to the median from southbound. This has
been mentioned but is not included! Too bad - That
would have solved that dangerous weave & help with
Lake wood Exit traffic. The reverse should be
included from I-30 to median on I-40.

Comments: I HAVE CONCERNS ABOUT 5 LANES ON I-30
HEADING NORTH & DUMPING INTO WHAT IS ESSENTIALLY
3 LANES (1 WEST, 1 INTO PARALLEL & 2 HEADING EAST)
OF INTERSTATE WITH NO MEANS TO SOLVE THE EAST 40
& 67/167 LANE SWERVING TO ACCOMMODATE THOSE CONTINUING
TO HEAD NORTH & THOSE WHO ARE TRAVELING I40
EAST & WANTING TO CONTINUE TO HEAD EAST. I ALSO

(Continued on back)

AM CONCERNED ABOUT HAVING MEETINGS IN NEIGHBORHOODS WITH NO INFORMATION ABOUT WHERE EXIT/ENTRANCE RAMPs WILL BE GOING. MY CONCERN IS THAT DECISIONS ON SCOPE (10 LANES VS 8 LANES) WILL BE MADE AND THEN THOSE DECISIONS WILL MANDATE WHERE THE RAMPs ARE & IT WILL BE TOO LATE TO GET NEIGHBORHOOD ~~DIAGNOSTIC~~ INPUT.

WITHOUT SOLVING THE 67/167 - 40 EAST PROBLEM THIS APPEARS TO BE AN EXERCISE IN FUTZLETRY AS FAR AS TRAFFIC FLOW IMPROVEMENT IS CONCERNED.

ACCESS ROUTES FROM ONE SIDE OF T-30 TO THE OTHER NEED SIGNIFICANT IMPROVEMENTS - WIDER, BETTER LIT WITH WIDE SIDEWALKS TO HELP KIDS SAFELY CROSS UNDER THE INTERSTATE.

Comments: Several:

1. As the guy who did Metroplex's projection, I can tell you that they were
done based on pre-2010 data, the best then available. The 2000-2010
decade saw an unusual up-tick in population growth, influencing the
projection out to 2040. Based on trends post-2010, regional population
growth has slowed sharply (see recent Metrotrends newsletters), suggesting
we're less likely to reach the 943,000 total forecast for 2040. Conte →

(Continued on back)

For that reason, I think the 165,000 VPD forecast for the I-30 bridge is probably too high.

2. I can see 8 lanes just for the bridge, remaining 6 lanes elsewhere but with upgrades to the on/off flows. I like the C/D lanes and have found these helpful driving in large US metros like Wash DC, Dallas, Houston, Chicago etc.

3. Congestion isn't really that bad on ^{I-30, from 630 to 40} this stretch, except at rush hour, and even then the biggest constraint is the on/off and weaving, not total traffic (at least not yet). Try a larger urban area for comparison. I remember getting back from a week in DC and finding traffic almost laughable in comparison.

4. I genuinely fear the really wide cross-sections, i.e. 10-12 lanes. Why? Because I've driven them in other urban areas and find driver behavior is frequently horrifying; traffic moves 10-15 mph above the posted limit and there are always some 'road warriors' weaving in and out going 90 mph+. Mark my words, if I-30 is widened to 10-12 lanes, you'll see some pretty spectacular crashes.

5. While some improvement, (and a new bridge) is necessary, I'm convinced the money would be better spent on upgrading arterial streets through the region, via access mgmt and ~~minor~~ minor widening where necessary. Such upgraded arterials could absorb much of the traffic growth while taking ~~traffic off~~ ^{local} local traffic off the freeway, allowing them to return to the role for which they were designed: intercity / long-distance travel.

Thanks! Jonathan Lupton

Comments: the only benefit for the 6 lane

would be ~~the~~ the 2 lane c/o lanes.

But do we really need 3+3 lanes if

we have 2 c/o lanes in each direction.

Personal comment - not a

official city comment.

Comments: What is the plan to handle the pedestrian foot traffic
that runs down Clinton Ave? Currently the people cause traffic issues
for those crossing the river. The traffic will only increase when
the Broadway Bridge is imploded.

Will I-30 be closed to truck traffic across the Arkansas
River

(Continued on back)

Will the meanings & the entirety of the bridge be replaced? Or will it just be the span?

Comments: Want least impact to downtown. 8-lane
is preference but would want to know what
we're gaining and/or losing with each
scenario. (8 vs. 10)

Would like entrance into downtown
Little Rock to be welcoming architecturally
not just a concrete bridge cutting through.

Comments: I don't think the 3 lane w/ C/P lanes plan will help very much. I am hesitant to support the 5 lane plan because it is ugly and seems too wide. However, I wonder if the 3 lane + 2 C/P lane plan will significantly reduce congestion. I like this plan the best if it can be applied without tearing down any important buildings in downtown LR. Comments: The 10 lane / CD option seems
like the best overall option for
long-term development. However,
to disrupt all the work that has
been put in around the Clinton Center - to
-the Rivermarket, would be destructive to
the development of the city. If possible,

(Continued on back)

the roads should be developed
upwards rather than atwends.

Best,

Kellylar

I do not think it is acceptable to consider either 8 or 10 lanes for Interstate 30. For one thing, the Metroplan Board for many years has taken a stand against more than 6 lanes, instead favoring the development of a more multi-modal system. I wholeheartedly agree with this stance. For another thing, I know you have done traffic forecasts, but the overall trend is to less, not more driving, for a variety of reasons I am sure you have read as much as I have. I know Central Arkansas is growing population-wise, but that is still a lot of pavement if the VMT trend holds. I would rather have congestion that makes people reconsider jumping in their cars and to consider transit, than to over-build roads.

But more personally, just as a driver, I don't want driving in Little Rock to feel like driving in Atlanta. I much prefer that we find other ways to accommodate the traffic, like building a new bridge at Chester Street and funneling some of the traffic out through North Little Rock. I have read that your travel demand model doesn't show that this will help much, but I am not convinced. The Little Rock/North Little Rock area needs several more bridges so the traffic can spread out. People would not use I-30 for local traffic if they had viable alternatives. I do not think the Collector/Distributor lanes are a viable alternative.

Thanks,

Marsha Guffey

Subject: Comments on AHTD CA0602 (I-30 PEL)

These comments are related to the AHTD Job CA0602 (I-30 PEL study), public meeting #3 on January 29, 2015.

+++++

Of the three options presented at Meeting #3 on 1/29/15, I very much prefer the 8-Lane C/D Scenario. I can barely stomach the 10-Lane C/D Scenario, and I absolutely abhor the 10-Lane Scenario. But frankly, I doubt that the AHTD is taking a vote on this issue.

I do not think we need more through lanes to solve a problem that exists for maybe ten hours a week. This afternoon (a Tuesday), at about 4:50 PM, I drove from Crystal Hill, traveling east on I-40, turned right onto I-30 West, traveled through the downtown and turned right on I-630 West. I never went slower than 40 MPH, and people were passing me. It was surely the heart of rush hour, and I never encountered a problem.

I have much more difficulty during rush hour traveling in the city, crossing the Broadway bridge, trying to travel east to west through the downtown. Except when there is a wreck, I do not have problems on the freeways downtown. I wish that AHTD had a broader concept of the "T" in their name, and wasn't so dependent on building bigger and wider highways to solve every transportation problem. What I think we need more than additional through lanes downtown (where people who live there will have to breathe more auto pollution), is more public transit, better on- and off-ramps with the freeways, improved traffic lights, smarter intersections, well-paved streets. I'd rather see this money spent on the Broadway bridge and replacing the NLR Main Street bridge over the viaduct downtown.

To me, building more lanes primarily means that a single wreck can bottle up more traffic. Over the past 40 years I've seen that result on every one of your expansion projects.

Sincerely,

Patrick Stair
